NHS Data Model and Dictionary Service

Type:	Data Dictionary Change Notice
Reference:	1464
Version No:	1.0
Subject:	Retirement of Standards - Domains and Diagrams
Effective Date:	Immediate
Reason for Change:	Retirement of Data Standards
Publication Date:	24 March 2014

Background:

The Information Standards Board for Health and Social Care (ISB) has conducted a review of all Data Set Change Notices (DSCNs) and Information Standards Notices (ISNs) issued since 1987, to update its portfolio of standards prior to the handover of responsibility to NHS England, the Health and Social Care Information Centre (HSCIC) and Public Health England.

This review has identified a number of data standards in the NHS Data Model and Dictionary which have been superseded or are no longer in use.

A number of Data Dictionary Change Notices (DDCN) have retired items in the NHS Data Model and Dictionary in line with the Data Set Change Notices, as listed on the ISB Advanced Notification - Withdrawal issued 26/09/13.

This Data Dictionary Change Notice updates the following items in the NHS Data Model and Dictionary:

- Updates and retires diagrams following the retirement of a number of Classes
- Updates and retires domains to be consistent with NHS Data Model and Dictionary Editorial Policy.
