

# NHS Data Model and Dictionary

**Type:** Data Dictionary Change Notice  
**Reference:** 1899  
**Version No:** 1.0  
**Subject:** Professional Registration Entry Identifier  
**Effective Date:** Immediate  
**Reason for Change:** Change to definitions  
**Publication Date:** 11 October 2023

## Background:

It has been identified that the definition of the Attribute "Professional Registration Entry Identifier" is incorrect as it is the identifier issued to a registered Care Professional by a Professional Registration Body, not an organisation.

This Data Dictionary Change Notice updates the NHS Data Model and Dictionary to:

- Update the Attribute "Professional Registration Entry Identifier" to reflect how the identifier is issued
- Updates Classes, Data Elements and NHS Business Definitions to reflect the change.

A short demonstration is available which describes "How to Read an NHS Data Model and Dictionary Change Request", in an easy to understand screen capture including a voice over and readable captions. This demonstration can be viewed at: [https://datadictionary.nhs.uk/elearning/change\\_request/index.html](https://datadictionary.nhs.uk/elearning/change_request/index.html).

Note: if the web page does not open, please copy the link and paste into the web browser. A guide to how to use the demonstration can be found at: [Demonstrations](#).
