

NHS Data Model and Dictionary

Type:	Data Dictionary Change Notice
Reference:	1904
Version No:	1.0
Subject:	Continued Usage of Treatment Function Codes 344, 345 and 346 For Specialist Rehabilitation Services
Effective Date:	11 August 2023
Reason for Change:	Update of Information
Publication Date:	16 October 2023

Background:

Queries have been received regarding the usage of the following Treatment Function Codes (TFCs), as the description states they will be removed from use from April 2022.

- 344 - Complex Specialised Rehabilitation Service
- 345 - Specialist Rehabilitation Service
- 346 - Local Specialist Rehabilitation Service

These codes were intended for removal at that time because CDS v6-3 went live in April 2022. CDS v6-3 includes the ability to submit details of specialised services using the SERVICE CODE data item, as well as more granular detail using SNOMED CT codes.

However, not all Trusts have yet adopted CDS v6-3, and limited SNOMED CT data is being submitted and none retained within SUS because NHS England does not yet hold a list of legally restricted SNOMED CT codes.

It is therefore permissible to continue using TFCs 344, 345 and 346 for existing services until further notice.

This Data Dictionary Change Notice (DDCN):

- changes the wording on the TFCs to say that they will be removed in a future update to the [DCB0028: Treatment Function and Main Specialty Standard](#).

A short demonstration is available which describes "How to Read an NHS Data Model and Dictionary Change Request", in an easy to understand screen capture including a voice over and readable captions. This demonstration can be viewed at:

Guidance Notes relating to [MAIN SPECIALTY CODE](#) and [TREATMENT FUNCTION CODE](#).

For further information regarding the definition and use of [MAIN SPECIALTY](#) see the attribute [MAIN SPECIALTY CODE](#).

For further information regarding the definition and use of [TREATMENT FUNCTION](#) see the attribute [TREATMENT FUNCTION CODE](#).

Note:

- New National Codes for [MAIN SPECIALTY CODE](#) and [TREATMENT FUNCTION CODE](#) were introduced from 2 April 2020 as part of the update to the [DCB0028: Treatment Function and Main Specialty Standard](#). Submission of these codes for the Commissioning Data Sets is only possible where the healthcare provider has updated their CDS-XML schema version to CDS-XML version 6-2-0. Users of the original CDS-XML schema version 6-2 will be unable to submit the new codes introduced in the release of [DCB0028: Treatment Function and Main Specialty Standard](#) in April 2020 or the addendum to DCB0028 released in January 2021 to add a new [TREATMENT FUNCTION CODE](#) to represent Post-COVID-19 Syndrome Services.
