

# NHS Data Model and Dictionary

**Type:** Data Dictionary Change Notice  
**Reference:** 1928  
**Version No:** 1.0  
**Subject:** Retirement of NHS Continuing Healthcare Patient Level Data Set and NHS Continuing Healthcare Data Set  
**Effective Date:** 1 April 2025  
**Reason for Change:** Change to Information Standards  
**Publication Date:** 10 March 2025

## Background:

The NHS Continuing Healthcare Patient Level Data Set and NHS Continuing Healthcare Data Set have been retired from the NHS Data Model and Dictionary as they are no longer in the scope of the NHS Data Model and Dictionary.

This Change Request retires the NHS Continuing Healthcare Patient Level Data Set and NHS Continuing Healthcare Data Set and the supporting definitions from the NHS Data Model and Dictionary.

A short demonstration is available which describes "How to Read an NHS Data Model and Dictionary Change Request", in an easy to understand screen capture including a voice over and readable captions. This demonstration can be viewed at: [https://datadictionary.nhs.uk/elearning/change\\_request/index.html](https://datadictionary.nhs.uk/elearning/change_request/index.html).

Note: if the web page does not open, please copy the link and paste into the web browser. A guide to how to use the demonstration can be found at: [Demonstrations](#).

Change to Supporting Information: Changed status to Retired, Description, Name

**Introduction** This item has been retired from the NHS Data Model and Dictionary.

The [NHS Continuing Healthcare Data Set](#) is transmitted at aggregate level to the [NHS England Strategic Data Collection Service \(SDCS\)](#) with publication outputs available on the [NHS England](#) website at: [NHS Continuing Healthcare and NHS funded Nursing Care](#). The last live version of this item is available in the November 2024 release of the NHS Data Model and Dictionary.

The [Department of Health and Social Care](#) introduced the [National framework for NHS continuing healthcare and NHS funded nursing care](#) in 2007 to establish a consistent and standardised guide to implementing the delivery of [NHS Continuing Healthcare \(NHS CHC\)](#). This was last revised in March 2018 and replaces the previous 2012 version. The National Framework sets out [NHS Continuing Healthcare](#) and assessment processes. The latest version places a strong focus on moving assessments outside of an acute setting. Access to this version can be obtained by emailing [information.standards@nhs.net](mailto:information.standards@nhs.net) with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

[NHS Continuing Healthcare](#) is a package of ongoing care that is 100% funded solely by the NHS where the [PERSON](#) has been found to have a 'primary health need' as set out in the [National framework for NHS continuing healthcare and NHS funded nursing care](#). Such care is provided to a [PERSON](#) aged 18 or over, to meet needs that have arisen as a result of disability, accident or illness.

In order to monitor the implementation and effectiveness of the Framework, a mandatory collection requires the submission of quarterly figures on [NHS Continuing Healthcare](#) and [NHS funded Nursing Care](#) activity.

**The collection includes**

- **PERSONS** aged 18 or over eligible for [NHS Continuing Healthcare](#) as defined by the [National framework for NHS continuing healthcare and NHS-funded nursing care](#).
- **PERSONS** still recognised as eligible under the former [Strategic Health Authorities](#)' eligibility criteria.
- **PERSONS** identified as eligible for [NHS Continuing Healthcare](#) following assessment of eligibility for [Previously Unassessed Period of Care \(PUPoC\)](#). This includes [Previously Unassessed Periods of Care](#) related to the 'closedown' announcement made by the [Department of Health and Social Care](#) in 2012 in which deadlines were introduced for requesting assessments of eligibility for past periods of care falling between 1st April 2004 and 31st March 2012. This also includes non closedown [Previously Unassessed Periods of Care](#) relating to assessments of eligibility for past periods of care falling after 31st March 2012.

**The collection excludes:**

- **PERSONS** funded through other NHS funding streams which are not [NHS Continuing Healthcare](#) or [NHS-funded Nursing Care](#)
- **PERSONS** funded under any section of the Mental Health Act. The exception to this is if an individual is funded under a Mental Health Section and eligible for [NHS Continuing Healthcare](#) under the National Framework eligibility criteria. In these instances the activity related to the [NHS Continuing Healthcare](#) package is still included but any activity covered by the Mental Health section should be excluded
- Interim Cases – **PERSONS** receiving temporary [NHS Continuing Healthcare](#) funding pending eligibility decision or **PERSONS** who have ceased being eligible but are still being funded
- **PERSONS** under 18 years of age. [NHS Continuing Healthcare](#) packages are funded for individuals aged 18 and over only therefore only individuals aged 18 years or over are included in this return.

For further information on the [NHS Continuing Healthcare Data Set](#), see the [Department of Health and Social Care](#) part of the gov.uk website at: [National framework for NHS continuing healthcare and NHS-funded nursing care](#).

**Mandation**

The Mandation column indicates the recommendation for the inclusion of data.

- **M** – Mandatory: this data element is mandatory and the technical process (e.g. submission of the data set, production of output etc) cannot be completed without this data element being present
- **R** – Required: NHS business processes cannot be delivered without this data element.

## NHS CONTINUING HEALTHCARE PATIENT LEVEL DATA SET OVERVIEW (RETIRED) renamed from NHS CONTINUING HEALTHCARE PATIENT LEVEL DATA SET OVERVIEW

Change to Supporting Information: Changed status to Retired, Description, Name

### Introduction **This item has been retired from the NHS Data Model and Dictionary.**

The [NHS Continuing Healthcare Patient Level Data Set](#) is [PATIENT](#) level, output based, secondary user data set. It delivers robust, comprehensive, nationally consistent and comparable [PERSON](#) centred information for people who are in receipt of, or whose eligibility is being assessed for, [NHS Continuing Healthcare](#) or [NHS funded Nursing Care](#). The data set does not include information about requests for an independent review of an [NHS Continuing Healthcare](#) eligibility decision. The last live version of this item is available in the November 2024 release of the NHS Data Model and Dictionary.

As a secondary uses data set the [NHS Continuing Healthcare Patient Level Data Set](#) re-uses operational data for purposes other than direct [PATIENT](#) care. It defines the data items, definitions and associated value sets to be extracted or derived from local systems. Access to this version can be obtained by emailing [information.standards@nhs.net](mailto:information.standards@nhs.net) with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

The data collected in the [NHS Continuing Healthcare Patient Level Data Set](#) covers all [NHS Continuing Healthcare](#) and [NHS funded Nursing Care ACTIVITY](#) undertaken by responsible commissioners (or other [ORGANISATIONS](#) acting on their behalf), in line with the [NHS Continuing Healthcare](#) (National Framework) in England.

The [NHS Continuing Healthcare Patient Level Data Set](#) is used by the [Department of Health and Social Care](#), [NHS England](#), commissioners and [PATIENTS](#), as the data set provides:

- National, comparable, standardised data about [NHS Continuing Healthcare](#) and [NHS funded Nursing Care](#), which will support intelligent commissioning decisions and [SERVICE](#) provision
- Information on the use of resources to improve the operational management of [SERVICES](#)
- Support for current national performance indicators for [NHS Continuing Healthcare](#)
- Information for the future development of [NHS Continuing Healthcare](#) and [NHS funded Nursing Care](#).

### Data Collection

The [NHS Continuing Healthcare Patient Level Data Set](#) provides the definitions for data to:

- be lodged in the data warehouse regularly and routinely,
- be assembled, compiled and to flow into a secondary uses data warehouse,
- provide timely, pseudonymised [PATIENT](#) based data and information for purposes other than direct clinical care, e.g. planning, commissioning, public health, performance improvement, research, clinical governance.

Data is expected to be extracted and collated by [Sub Integrated Care Board Locations](#) from the [NHS Continuing Healthcare](#) management systems used by responsible commissioners ([Integrated Care Boards](#)) to manage their [NHS Continuing Healthcare](#) function.

Data will be reported monthly.

### Submission Information

The [NHS Continuing Healthcare Patient Level Data Set](#) is submitted to [NHS England](#) using the [NHS Continuing Healthcare Patient Level Data Set XML Schema](#).

### Format Information

Data for submission will be formatted into an XML file as per the [Technology Reference Update Distribution \(TRUD\)](#) page at: [NHS Data Model and Dictionary XML Schemas](#).

For enquiries regarding the XML Schema, please contact [NHS England](#) at [enquiries@nhsdigital.nhs.uk](mailto:enquiries@nhsdigital.nhs.uk).

### Further Guidance

Further information and implementation guidance has been produced by [NHS England](#) and is available at: [NHS Continuing Health Care \(CHC\) Data Set](#).

### Mandation

The Mandation column indicates the recommendation for the inclusion of data.

- M – Mandatory: this data element is mandatory and the technical process (e.g. submission of the data set, production of output etc) cannot be completed without this data element being present

- **R** = Required: NHS business processes cannot be delivered without this data element
- **O** = Optional: the inclusion of this data element is optional as required for local purposes.
