Subject: Changes to reporting procedures for Overseas Visitors from the

European Economic Area and Switzerland

Effective Date: Immediate

Reason for Change: Change to Data Standards **Publication Date:** 15 September 2010

Background:

From 12 October 2009 the Department of Health changed the arrangements for recording and reporting of healthcare (including planned treatments) for visitors from the European Economic Area (EEA) and Switzerland.

The key features of these changes are as follows:

• Collection of European Health Insurance Card (EHIC) details:

- o There is a requirement to collect European Health Insurance Card and Provisional Replacement Certificate (PRC) data from European Economic Area and Switzerland visitors wherever available.
- o The data is reported to the Department for Work and Pensions Overseas Healthcare Team (DWP OHT).
- Without this information, the United Kingdom cannot claim reimbursement from European Economic Area member states (and Switzerland) and treatment will have effectively been provided by the United Kingdom taxpayer for free.

• Charging European Economic Area and Switzerland visitors:

- o European Economic Area and Switzerland visitors should be charged for healthcare where they:
 - are not able to present an European Health Insurance Card, or a Provisional Replacement Certificate,
 - are not able to demonstrate that they are an European Economic Area and Switzerland national (or a stateless person or refugee or family member) who is resident in an European Economic Area and Switzerland country and
 - do not qualify under any other exemptions in the Overseas Visitor Hospital Charging Regulations.

Relocation of work from Leeds Primary Care Trust to Department for Work and Pensions Overseas Healthcare Team:

- Information about both necessary (European Health Insurance Card) and planned (E112) treatments of European Economic Area and Switzerland visitors is sent to the Department for Work and Pensions Overseas Healthcare Team.
- o All data is sent via the Overseas Visitor Treatment (OVT) Portal, a secure web interface, which is accessed via https://nww.ovt.dh.nhs.uk/.

Finance arrangements are not changing:

- o Trusts invoice their host Primary Care Trust for healthcare provided to charge-exempt overseas visitors.
- o The process of recording and reporting European Health Insurance Card and Provisional Replacement Certificate details for European Economic Area and Switzerland visitors is separate from existing funding mechanisms.

• Discontinuation of Income Generation Audit (IGA) forms:

o There is no requirement to complete Income Generation Audit forms for any treatments, whether for planned treatment of European Economic Area and Switzerland visitors or for visitors from countries outside the European Economic Area and Switzerland with whom there is a bilateral relationship (e.g. Australia).

• Evaluation:

o The success of trusts in recording and reporting of healthcare will be measured by quarterly tables of reported treatments by trust. These figures will be analysed against visitor numbers to the regions concerned.

CDS ADDRESSING GRID

Change to Supporting Information: Changed Description

Activity from 1st April 2005

To help determine who has access to Commissioning Data Set data once it has been stored in the <u>Secondary Uses</u> <u>Service</u>, <u>NHS Trusts</u> and <u>Primary Care Trusts</u> need to identify each of those <u>ORGANISATIONS</u> as a <u>CDS COPY</u> <u>RECIPIENT IDENTITY</u> taking all of the following factors into account. Information is required to:

- monitor and manage NHS SERVICE AGREEMENTS;
- develop commissioning plans;
- monitor <u>HEALTH PROGRAMMES</u>;
- underpin clinical governance;
- understand the health needs of the population.

Main commissioners need access to data to monitor <u>Non-Contract Activity</u> as part of the management of their <u>NHS SERVICE AGREEMENTS</u>.

<u>Primary Care Trusts</u> need to monitor in-year referrals to investigate the sources and reasons for <u>Non-Contract</u> <u>Activity</u>.

Independent Sector Treatment Centres are responsible for providing Admitted Patient Care and Out-Patient Attendance Commissioning Data Sets and may submit on their own behalf or via a third party.

Other Independent Sector activity for NHS <u>PATIENTS</u> is the responsibility of the NHS commissioning body for the provision of the appropriate central returns and data sets.

The <u>Department of Health</u> require a complete record of all <u>PATIENTS</u> admitted to or treated as out-patients by NHS hospitals and <u>Primary Care Trusts</u>, including <u>PATIENTS</u> receiving private treatment. The record also includes NHS PATIENTS treated electively in the independent sector and overseas visitors.

The record also includes:

- NHS PATIENTS treated electively in the independent sector and
- PATIENTS who are Overseas Visitors.

A <u>PATIENT</u> / <u>NHS SERVICE AGREEMENT</u> entry has been specifically introduced to identify <u>ACTIVITY</u> commissioned by the National Specialised Commissioning Group (NSCG). The code YDD82 should be used as the <u>ORGANISATION CODE (CODE OF COMMISSIONER)</u> for National Specialised Commissioning Group commissioned activity.

ORGANISATION CODE (CODE OF COMMISSIONER)

Change to Data Element: Changed Description

Format/length: see ORGANISATION CODE

HES item: PURCODE

National Codes: Default Codes:

Notes:

ORGANISATION CODE (CODE OF COMMISSIONER) is the same as the attribute ORGANISATION CODE.

This is the <u>ORGANISATION CODE</u> of the <u>ORGANISATION</u> commissioning health care. This should always be the <u>ORGANISATION CODE</u> of the original commissioner for Commissioning Data Sets to support Payment by Results.

Commissioning responsibility for individual <u>PATIENTS</u> rests with the <u>Primary Care Trust</u> with whom the <u>PATIENTS</u> is registered. This means that <u>PATIENTS</u> registered with a <u>General Medical Practitioner Practice</u> in one <u>Primary Care Trust</u> area may reside in a neighbouring or other area but remain the responsibility of the <u>Primary Care Trust</u> with whom their <u>General Medical Practitioner Practice</u> of registration is associated. <u>Primary Care Trusts</u> are also responsible for non-registered <u>PATIENTS</u> who are resident within their boundaries.

For <u>Non-Contract Activity</u>, for English registered <u>PATIENTS</u> the <u>ORGANISATION CODE</u> (<u>CODE OF COMMISSIONER</u>) is the responsible <u>Primary Care Trust</u>.

For <u>Non-Contract Activity</u> on <u>PATIENTS</u> from Wales, Scotland and Northern Ireland (devolved administrations) the <u>ORGANISATION CODE (CODE OF COMMISSIONER)</u> is the commissioner from the devolved administration. Where specialised services are commissioned by *Health Commission Wales* the code W01HC should be used.

Charge-exempt overseas PATIENTS are identified by the OVERSEAS VISITORS STATUS CLASSIFICATION where the National Code is either 1 'Exempt from payment - subject to reciprocal health agreement' or 2 'Exempt from payment - other'. Charge-exempt overseas PATIENT activity is funded via the main (host) commissioner - normally the Primary Care Trust with the highest value of service agreements with the NHS Trust. However, for ACTIVITY that is 'exempt from payment - subject to reciprocal health agreement' TDH00 should be used in the ORGANISATION CODE (CODE OF COMMISSIONER) field. The code for the Overseas country should be given in the POSTCODE field. ACTIVITY that is given the TDH00 code will be captured centrally by the Secondary Uses Service (SUS), sent to the provider's host commissioner to pay, and copied to Leeds Primary Care Trust. ACTIVITY under the 'exempt from payment - other' category eg infectious diseases, should be given the ORGANISATION CODE (CODE OF COMMISSIONER) of the main commissioner as the activity is not required by Leeds Primary Care Trust.

Treatment for PATIENTS who are Overseas Visitors should be reported to the Department for Work and Pensions Overseas Healthcare Team via the Overseas Visitor Treatment Portal. This enables the Department of Health and ultimately the NHS to be reimbursed for the cost of treatments of Overseas Visitors from the European Economic Area (EEA) and Switzerland under European Union regulations.

For <u>PATIENTS</u> from the Channel Islands, Gibraltar and the Isle of Man it is recommended that TDH00 should be used in the <u>ORGANISATION CODE</u> (<u>CODE OF COMMISSIONER</u>). The code for the Overseas country should be given in the <u>POSTCODE</u> field.

For overseas chargeable <u>PATIENTS</u> and private <u>PATIENTS</u> the <u>ORGANISATION CODE (CODE OF COMMISSIONER)</u> should be VPP00.

For Specialised Services, the <u>ORGANISATION CODE</u> (<u>CODE OF COMMISSIONER</u>) required would be that of the commissioning consortium. The code may be the <u>ORGANISATION CODE</u> of the 'lead' commissioner or a valid pseudo <u>ORGANISATION CODE</u> registered by the <u>Organisation Data Service</u>. See the <u>Organisation Data Service</u> website at <u>Contact Details</u>.

For episodes funded directly by the National Specialised Commissioning Group (NSCG) the code YDD82 should be used. Charge-exempt overseas visitors who require services covered by the National Specialised Commissioning Group arrangements are funded through the National Specialised Commissioning Group. Charge-exempt Overseas Visitors who require services covered by the National Specialised Commissioning Group arrangements are funded through the National Specialised Commissioning Group.

OVERSEAS VISITORS STATUS CLASSIFICATION

HES item:

National Codes: See <u>OVERSEAS VISITORS STATUS CLASSIFICATION</u>

Default Codes:

8 - Not applicable (not an overseas visitor)

8 - Not applicable (not an Overseas Visitor)

9 - Charging rate not known

Notes:

OVERSEAS VISITORS STATUS CLASSIFICATION is the same as attribute OVERSEAS VISITORS STATUS CLASSIFICATION.

Income Generation Audit (IGA) forms for overseas visitors should be sent to Leeds <u>Primary Care Trust</u>, the agency acting on behalf of the <u>Department of Health</u>. This enables the financial side of reciprocal and international agreements to be supported. It also helps to monitor the treatment of overseas visitors and associated levels of <u>expenditure</u>. Healthcare for <u>PATIENTS</u> who are <u>Overseas Visitors</u> should be reported to the <u>Department for Work</u>

and Pensions Overseas Healthcare Team via the Overseas Visitor Treatment Portal. This enables the Department of Health and ultimately the NHS to be reimbursed for the cost of treatments of Overseas Visitors from the European Economic Area (EEA) and Switzerland under European Union regulations.

Where the transmission of Commissioning Data Sets identifies reciprocal agreement overseas <u>PATIENTS</u> by the use of TDH00 in the <u>ORGANISATION CODE</u> (<u>CODE OF COMMISSIONER</u>), the <u>Secondary Uses Service</u> will send the <u>ACTIVITY</u> to the <u>Health Care Provider</u>'s host commissioner to pay and copy it to Leeds <u>Primary Care Trust</u> = alleviating the need to send a separate Income Generation Audit form.

The <u>OVERSEAS VISITOR STATUS</u> may change while the <u>PATIENT</u> is being treated. All such changes should be recorded so that charges for treatment can be revised accordingly.
