NHS Data Model and Dictionary Service

Type:	
Reference:	1404
Version No:	1.0
Subject:	Retirement of e-Gif definitions
Effective Date:	Immediate
Reason for Change:	Change to Data Standards
Publication Date:	24 February 2014

Background:

The NHS Data Model and Dictionary includes definitions to support the e-Government Interoperability Framework (e-GIF) and the UK Government Data Standards Catalogue (GDSC). Following Cabinet Office advice that the framework should now be considered deprecated, the NHS Data Model and Dictionary Service issued DDCN_1345/2013_e-Government Interoperability Framework (e-GIF) and Government Data Standards Catalogue to advise that e-Gif/GDSC definitions were archived.

Following a consultation exercise the NHS Data Model and Dictionary has identified definitions that reference e-GIF/GDSC and are not in use by existing national collections. This Change Request retires these definitions.
