Type:	Data Dictionary Change Notice
Reference:	1727
Version No:	1.0
Subject:	Retirement of National Direct Access Audiology Data Set
Effective Date:	Immediate
Reason for Change:	Retirement of out of date content
Publication Date:	30 April 2019

Background:

As part of the ongoing work to implement a new version of the NHS Data Model and Dictionary, a review of legacy and out of date data sets contained within the NHS Data Model and Dictionary has been carried out.

A number of data sets are out of date and have been identified for retirement from the NHS Data Model and Dictionary. Note that the relevant Data Set Change Notices (DSCNs) have been reviewed and withdrawn where appropriate. This Data Dictionary Change Notice (DDCN) retires the National Direct Access Audiology Data Set.

To view a demonstration on "How to Read an NHS Data Model and Dictionary Change Request", visit the NHS Data Model and Dictionary help pages at: https://www.datadictionary.nhs.uk/Flash_Files/changerequest.htm.

NATIONAL DIRECT ACCESS AUDIOLOGY WAITING TIMES DATA SET OVERVIEW (RETIRED) renamed from NATIONAL DIRECT ACCESS AUDIOLOGY WAITING TIMES DATA SET OVERVIEW

Change to Supporting Information: Changed status to Retired, Name, Description

This data set is out of date therefore the information should not be used.This item has been retired from the NHS Data Model and Dictionary.
For further information, see the NHS England website at: Direct Access Audiology.

The National Direct Access Audiology Waiting Times Data Set collects performance information on a monthly basis on the Referral To Treatment pathways of PATIENTS who are receiving NHS funded audiology treatment in England, who are not already included in the Referral To Treatment Data Set data collection. This includes:**The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.**

- both analogue and digital hearing aid fittings
- services provided directly by NHS Healthcare Providers and also NHS funded PATIENTS treated via the Independent Sector and third sector providers (collected directly or via Primary Care Trusts)
- both new and existing PATIENTS
- any other PATIENTS attending Audiology services directly

For the purposes of the National Direct Access Audiology Waiting Times Data Set, "Direct Access" means PATIENTS who are not referred via Ear, Nose and Throat (ENT) specialist or other hospital CONSULTANT. Any pathways that are subject to the 18 week waiting time target for Referral to Treatment are out of scope. For this reason PATIENTS on Ear, Nose and Throat pathways (or pathways from other specialties) are excluded from this central return data set - information on these PATIENTS is available via the Referral To Treatment Data Set data collection.**Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.**

The National Direct Access Audiology Waiting Times Data Set is in two parts, as follows:

Part 1 - Treated Patients should be completed for PATIENTS who have had an ACTIVITY which ends their REFERRAL TO TREATMENT PERIOD (such as first definitive treatment, or a decision not to treat), within the REPORTING PERIOD.

Part 2 - Untreated Patients should be completed for PATIENTS without a REFERRAL TO TREATMENT PERIOD END DATE within the REPORTING PERIOD.

For further guidance, see NHS England website at: Direct Access Audiology.
