NHS Data Model and Dictionary Service

Type:	Data Dictionary Change Notice
Reference:	1418
Version No:	1.0
Subject:	Retirement of Standards
Effective Date:	1 April 2014
Reason for Change:	Retirement of Data Standards
Publication Date:	27 February 2014

Background:

The Information Standards Board for Health and Social Care (ISB) has conducted a review of all Data Set Change Notices (DSCNs) and Information Standards Notices (ISNs) issued since 1987, to update its portfolio of standards prior to the handover of responsibility to NHS England, the Health and Social Care Information Centre (HSCIC) and Public Health England. The full list can be found on the ISB Advanced Notification - Withdrawal issued 26/09/13.

This review has identified a number of items in the NHS Data Model and Dictionary which do not have a Data Set Change Notice or Information Standards Notice and are not used within a data set in the NHS Data Model and Dictionary.

This Data Dictionary Change Notice (DDCN) retires items in the NHS Data Model and Dictionary which fit into this category.

CONSULTANT CLINIC SESSION

Change to Supporting Information: Changed Description

A Consultant Clinic Session is a SESSION.

A Consultant Clinic Session is an individual occasion on which a Consultant Clinic is held or is intended to be held at a location. Each clinic is held on a number of occasions or sessions during a period of time. The maximum duration of a session is a notional half-day. The session may be held or cancelled. Each Consultant Clinic Session represents one unit of resource.

A Consultant Clinic Session is a clinic session held by a CONSULTANT and/or one or more members of that Consultant's firm forms a single Consultant Clinic Session.

Notes:
A doctor must always be present and available to see the PATIENT and is probably one of the following:

- CONSULTANT in charge of the clinic;
- member of the CONSULTANT firm running the clinic;
- GENERAL PRACTITIONER or other doctor acting as a clinical assistant;
- locum acting for the CONSULTANT;
- GENERAL PRACTITIONER running a clinic, such as a maternity clinic, by special arrangement with the Health Care Provider.

Count attendances at a clinic as Consultant Clinic attendances if and only if the PATIENT actually sees a doctor. Otherwise record it as an attendance at a Nurse Clinic or a face to face contact with another health professional. For example, you can record multi-disciplinary clinics or group therapy sessions as Consultant Clinics if a doctor is present and sees PATIENTS. Similarly, a Sexual and Reproductive Health Clinic can be a Consultant Clinic if a doctor is present and sees PATIENTS, otherwise the Sexual and Reproductive Health Clinic is classed as a Nurse Clinic.

During an attendance at an Out-Patient Clinic, a PATIENT may see a doctor and also see a NURSE or other health professional at another clinic, for example, for dietary advice or counselling. If the NURSE or health professional have their own list of PATIENTS, this attendance would need to be recorded separately as appropriate, e.g. a Nurse Clinic attendance.

DRUG MISUSE AGENCY

Change to Supporting Information: Changed Description

~~Drug Misuse Agency is an ORGANISATION.~~ A Drug Misuse Agency is a CLINIC OR FACILITY.

~~An ORGANISATION with Drug Misuse Facilities that provides a service to Drug Misusers. It encompasses all ORGANISATIONS offering a Drug Misuse Facility, both NHS and non-NHS located within the Primary Care Trust boundary.~~ A Drug Misuse Agency is a CLINIC OR FACILITY of an ORGANISATION that provides a service to Drug Misusers. It encompasses NHS and non_NHS facilities. An ORGANISATION may have more than one facility providing such services, each of which will be separately identified as a Drug Misuse Agency.

~~Note: This does not correspond to an 'Agency' defined in the Drug Misuse Database which relates to a Drug Misuse Facility.~~ Note: A user of multiple Drug Misuse Agencies from one ORGANISATION may have multiple Drug Misuse Episodes but there should be only one per Drug Misuse Agency active at any one time.

DRUG MISUSE EPISODE

Change to Supporting Information: Changed Description

~~Drug Misuse Episode is an ACTIVITY GROUP.~~ A Drug Misuse Episode is an ACTIVITY GROUP.

~~An episode of care provided to a Drug Misuser. It begins when a Drug Misuser uses a Drug Misuse Facility for the first~~

time or returns after a period of at least six months. A user of multiple Drug Misuse Facilities from one Drug Misuse Agency will have multiple Drug Misuse Episodes.A Drug Misuse Episode is an episode of care provided to a Drug Misuser.

There may also be a Community Episode for the PATIENT concerning the substance misused if during the Drug Misuse Episode the PATIENT is in contact with a community psychiatric nurse.

Information recorded for a Drug Misuse Episode includes:

EPISODE NUMBER
End Date o
Start Date

- The Drug Misuse Episode starts when a Drug Misuser is triaged by a Drug Misuse Agency
- The Drug Misuse Episode ends when a Drug Misuser is discharged from the Drug Misuse Episode or when the Drug Misuser has not been seen or received treatment for a default period of 2 months with the likelihood that the Drug Misuser will continue with the treatment.

DRUG MISUSE FACILITY (RETIRED) renamed from DRUG MISUSE FACILITY

Change to Supporting Information: Changed Description, status to Retired, Name

Drug Misuse Facility is a CLINIC OR FACILITY**This item has been retired from the NHS Data Model and Dictionary.**

A facility of one FACILITY TYPE from a Drug Misuse Agency that provides a service to Drug Misusers. It encompasses NHS and non-NHS facilities. A user of multiple Drug Misuse Facilities from one Drug Misuse Agency will have multiple Drug Misuse Episodes.**The last live version of this item is available in the February 2014 release of the NHS Data Model and Dictionary.**
